Basic programmable thermostat

Exceptional value

Looking for a thermostat that's an outstanding value? Now you can enjoy the automatic comfort and energy savings of a programmable thermostat from Honeywell. The Basic Programmable Thermostat lets you maximize comfort and save up to 30% on your heating/cooling costs—conveniently.

Premier White™ (also available in Taupe)

Honeywell—the #1 choice of homeowners and contractors
No other line of thermostats is more accurate

Exceptional comfort • Energy savings • Easy to use • The name consumers know and trust

Basic Programmable Thermostat

Easy to read display shows the day of the week, time, temperature and heating/cooling equipment status

Easy to use
Time ▲ sets time ahead
 ▼ sets time back
Temp ▲ raises the temperature setting
 ▼ lowers the temperature setting
 • **Hold Temp** overrides program temperature settings
 • **Low-battery display (bAtLo)** appears when new batteries are needed

Change the fan status. Select cooling or heating status.

Save energy

Using a programmable thermostat is one of the smartest and simplest ways to trim heating and cooling costs. You can save up to \$200 on your heating and cooling bill per year. (See energy savings maps.)

Your Basic Programmable Thermostat arrives preset with an energy-saving schedule ready to fit many lifestyles. Or you can customize the schedule in just moments.

Comfort for you

Your programmable thermostat keeps you comfortable in any season. The Basic Programmable Thermostat controls the temperature to within 2°F of the setting—the smallest change people can detect.

- It *automatically* adjusts to an energy-saving temperature when you're away or asleep.
- It *automatically* returns the home to a comfortable temperature just before you get up or get home.

Key features

- 4 programmable periods per weekday (with 2 programmable periods on the weekends) to fit your lifestyle
- Separate weekday and weekend schedules
- Battery-powered—retains settings in case of power failure
- Digital display shows the temperature and settings

Product notes

- Use with single-stage, 24 Vac heating/cooling systems
- Requires two AA-alkaline batteries (included)
- Your heating and air-conditioning contractor will help you select a thermostat that is compatible with your lifestyle and heating/cooling system

Honeywell

Choose better indoor air for your family by installing Honeywell solutions. You'll enhance your comfort and peace of mind.

Ultraviolet Air Treatment Systems
Zap airborne germs and prevent mold spore growth on air conditioning coils

Whole-House Air Cleaners
Trap a high percentage of airborne particles of the air passing through it
