Chronotherm® IV Plus

Superior comfort

- Control the climate in your home to within 1 degree of the setting
- Exceptional comfort—no other thermostat is more accurate
- Brings your home to a comfortable temperature before you wake up or come home

Save energy

- Save up to 30% on your heating and cooling bill per year*
- Saves energy when you're away or asleep
- Adaptive Intelligent Recovery™ automatically adjusts system operation to maximize comfort, while minimizing energy use

As an ENERGY STAR partner, Honeywell has determined that this product meets the demanding ENERGY STAR guidelines for energy efficiency.

Easy to use

- Preset with an energy-saving schedule. Customize in moments
- Large, backlit display is easy to read, even in the dark
- One touch of the key pad shows current settings

Saves you steps

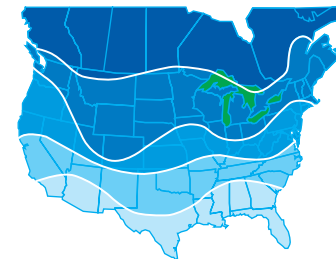

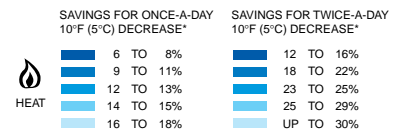

- 4 programmable periods per day
- Separate weekday and weekend schedules
- Memory chip retains settings in case of power failure
